May 16 – 19, 2010, Reno/Sparks, Nevada

Co-Hosts:

U.S. Geological Survey,
Society of Economic Geologists, Nevada Bureau of Mines and Geology,
Utah Geological Association and Arizona Geological Society

Information for Core Shack Presentations

April 20, 2009

Dear Presenter,

Thank you for your interest in presenting a core shack display at the GSN 2010 Symposium; Great Basin Evolution and Metallogeny.. We are pleased that you have chosen to present information in this manner. Our aim is to provide a means of presenting timely information and allowing discussion among presenters and viewers.

Core shack presentations will be held in Pavilion A on the second floor of the Nugget Hotel located on Interstate 80 in Sparks, Nevada. The presentations will remain on display throughout the symposium so that all attendees will have an opportunity to view them. Your booth location and number will be provided at the meeting. We ask presenters to set up their displays between 8AM and 3PM on Sunday, May 16th, 2010. Core will be displayed during exhibition hours: 5:00 to 8:00 PM on Sunday, 10:00 to 6:30 PM on Monday, May 17th; 10:00 AM to 6:30 PM on Tuesday, May 18th, and 10:00 AM to 3:30 PM on Wednesday, May 19th. Hosted receptions will be held Sunday, Monday, and Tuesday evenings in the poster and exhibition areas. Presenters are requested to be present in their booths for at least two hours of the four-day session schedule that do not conflict with the oral presentations or the luncheon speakers. Cards will be posted at each booth for authors to record the times, during which, they will be present to discuss their displays. At all other times during exhibition hours, booths will be open for viewing, but presenters need not be in the booth area. Presenters are responsible for materials left in booths at all times. However, security will be provided in the Pavilion Rooms during after-hours. Secured cabinets will be available, by prior arrangement, in the nearby mineral exhibit for displaying a limited number of special specimens. Core displays should be cleared from the booth area by 8:00 PM on May 19th.

Each presenter will be assigned one 2.5 by 8 foot table and a 4 by 8 foot framed tack board oriented horizontally behind the table. Maps can be attached to the tackboard by pushpins, tacks, staples, Velcro, or tape. It is the responsibility of the presenter to provide materials for attaching illustrations to the tack board, a title sheet for the tack board, and any specimen labels needed. Please plan your presentation to fit within the described layout. Additional equipment for the booth area such as chairs and electrical outlets may be requested by writing the Geological Society of Nevada, attention: Eric Struhsacker, P.O. Box 13375, Reno, NV 89507-3375, by FAX 775-284-7202, or by email at the address listed below. Requests should be received by April 1, 2010 and should include presenter's name and poster title. If you have any questions about the core shack session or the facilities available, contact Eric Struhsacker or Bob Thomas by email (see below) or Cheri Reimann, Office Manager, at 775-846-9766 or secretary@gsnv.org . Thank you.
